

Center Township Water Authority  
200 Fairview Drive  
Monaca, PA 15061  
724-774-7766

## WE NEED YOUR ASSISTANCE!

The PA Department of Environmental Protection is now requiring an inventory of ALL service lines, whether owned by the Authority or the Customer, to be inspected for lead. We are asking that you complete the attached survey either by mail, using the QR Code or the link provided on the survey. You can also find the link on our website [www.ctwa.us](http://www.ctwa.us). You will be asked to provide a picture of your meter with the survey. The Questionnaire only takes about 5-10 minutes to complete. If you would like someone from our maintenance staff to come out and complete the survey for you, please feel free to contact our maintenance office at 724-774-7766 to set up an appointment. Also please feel free to email [leadandcopper@ctwa.us](mailto:leadandcopper@ctwa.us) with any questions.

Center Township's Water Authority does monitor to make sure that residents are protected from lead that could be found in drinking water. The Water Authority is required by law to test drinking water from homes every three years to ensure that lead levels are in accordance with the Federal Lead and Copper Rule.

In Center Township, the drinking water delivered to your home meets or exceeds state and federal water quality standards. When high lead levels are found in tap water, the lead comes from plumbing on the customer's property.

Customers should check their homes for lead plumbing. If a lead service line or other lead plumbing is found, there are immediate steps you can take to reduce the chances of lead exposure from water.

# Center Township Water Authority Water Service Questionnaire

As part of the U.S. Environmental Protection Agency (EPA) updated Lead and Copper Rule we are requesting customer assistance in identifying interior plumbing materials. The questionnaire will take less than 5 minutes to complete.

To complete the form via a web form on your mobile device, scan the QR code or navigate to the link: <https://arcg.is/b8ufz>

## STRUCTURE INFORMATION

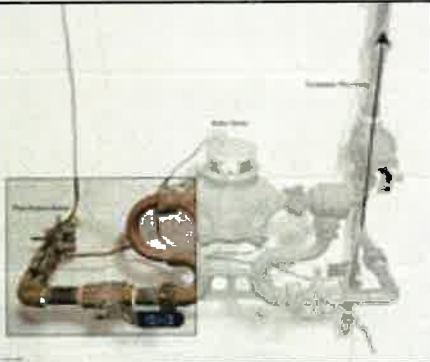

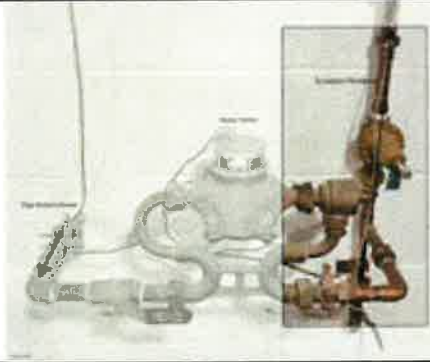

<b>Service Location (address)</b>		<b>Apt/Suite (if applicable)</b>	
<b>Year of construction (if known)</b>	<b>Residence Type</b>		
	<input type="checkbox"/> <i>Single Family Residential</i> <input type="checkbox"/> <i>Multiple Family Residential</i> <input type="checkbox"/> <i>Apartment</i> <input type="checkbox"/> <i>Commercial</i> <input type="checkbox"/> <i>Industrial</i> <input type="checkbox"/> <i>Institutional (School, Hospital, Churches, etc.)</i>		
<b>Has your underground water service line been replaced since your home was built? (if known)</b>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown	

## METER INFORMATION

<b>Example of a Water Service Meter</b>		<b>Meter Size (not required)</b> <input type="checkbox"/> 5/8" <input type="checkbox"/> 3/4" <input type="checkbox"/> 1"	
		<b>Meter Comments</b>	

## SERVICE LOCATION

TO DETERMINE THE MATERIAL OF YOUR WATER SERVICE LINE YOU WILL NEED TO: Locate the service line pipe as it enters your home from an exterior wall or floor (most likely in a crawl space or basement).

<b>Service Line 1   Pipe Entering Home (before meter)</b>	<b>Service Line 2   To Interior Plumbing (after meter)</b>
	

## Center Township Water Authority Water Service Questionnaire

<p><b>To determine material: Lightly scratch the pipe with a coin and check with a magnet.</b></p>	<p><b>Lead</b></p> 	<p><b>Galvanized</b></p> 
	<p>Coin <b>WILL</b> scratch the soft metal and will leave a "shiny" silver spot behind. Magnet will <b>NOT</b> stick</p>	<p>Coin will <b>NOT</b> scratch the hard metal and will not leave a "shiny" silver spot Magnet <b>WILL</b> stick</p>
	<p><b>Copper</b></p> 	<p><b>Plastic</b></p> 
	<p>Coin will <b>NOT</b> scratch the hard metal and will not leave a "shiny" silver spot Magnet will <b>NOT</b> stick</p>	<p>Do NOT need to perform scratch test. Pipe color is typically blue, black, white, or tan. Magnet will <b>NOT</b> stick</p>

<b>Service Line 1   Pipe Entering Home (before meter)</b>	<b>Service Line 2   To Interior Plumbing (after meter)</b>
